## OUR HISTORY

Pwani Oil Products Ltd, fondly known as "Pwani", was founded in 1985 by our Chairman, Ramesh Malde together with Directors Anil and Naresh Malde. Our beginnings were humble; selling out of a kiosk and with an initial production of 15 tons a day. Our first plant in Mombasa started production in 1985 with corn and coconut oil that later evolved into a palm oil refining plant.

Today, our modern state of the art factory at Kikambala, Kilifi, has a capacity to refine over 1,000 metric tonnes of oil a day, prepared to the highest international standards. In addition, our new Home & Personal Care facility at Kikambala produces excellent laundry and moisturizing beauty soaps, which is to the highest standard.

Pwani is now one of the largest manufacturers of high quality edible vegetable oils and fats, laundry and toilet soaps in the East and Central African region.
